

Basic Specification

60	1 x Pre-Owned ESE3 RS1100 City Sucker RSP Suction Excavator Mounted on a Mercedes-Benz Atego 1324 4x2 Euro 6 Chassis Day Cab	1 pc
----	---	------

Technical Details – Mileage and Fan/Compressor Hours correct as at 17.06.2024

Year of Manufacture	2014
Fuel Tank Capacity	1 x 195 litre
Present Mileage	151,679 km
Fan Hours	1295.05
Compressor Hours	1537.02

A Suction Capacities

A000	High Performance Single Fan; Qmax = 11,300 m ³ /hr, Pmax = 14,855 Pa	Included
------	---	----------

B Separation System

B014	Fine Filter Unit with automated compressed air cleaning system	Included
B033	1.1m ³ Tilting Container	Included

C Hose Carrier

C004	Telescopic suction hose carrier (Palfinger PC1500 Crane) Range 3,100 mm, slewing range 180 degrees	Included
C424	Suction hose carrier and lid transport position sensors with visual and audible warning system	1 pc

D Working Area

D000	1.2 PE Suction Nozzle	Included
------	-----------------------	----------

E Hydraulic System

E100	Ultra fine bypass filter in the return line	1 pc
E410	External hydraulic outlet Pmax = 200 bar at 25 litres per minute	1 pc

F Pneumatic System

F000	Air connections on the nearside for oiled and non-oiled pressurised air	Included
F200	Air Compressor Qmax = 4,5 m ³ /min; Pmax = 7 bar radio remote controlled	1 pc
F400	Stainless steel hose reel with spring return including an 8m hose, 19mm diameter	2 pcs

H Control System

H000	Entire superstructure is controlled by PLC Display including constant monitoring system showing machine data	Included
H020	Remote control unit that operates superstructure functions including spare transmitter, battery and battery charger	Included
H240	Remote storage inside fan housing incl. visual/audible warning in cab	1 pc

I Additional Equipment

I000	Exhaust air silencer frequency optimised for RSP Suction Excavators to reduce noise levels	Included
I510	Handwash basin	1 pc

UNITED KINGDOM

K Safety Equipment / Industrial Equipment		
K000	Emergency stop button with large mushroom head	Included
K330	Additional emergency stop button mushroom head	Included
K400	Electrical level indicator (Ultrasonic shown in %)	1 pc
K416	Extended high lubricating points to lubricate from the ground	1 pc
K436	Safety locks for lid cylinders	1 pc
K451	Inverter 110V,1500 W including one socket at the rear of the vehicle	1 pc
K630	6kg dry powder hand operated fire extinguisher and protective cabinet	1 pc
L Illuminating Equipment / Warning Devices		
L000	LED flashing beacon mounted at the rear of the vehicle	Included
L010	LED Work lamp mounted at the rear of the vehicle	Included
L020	LED Marker lights positioned on the lid	Included
L100	Additional LED work lamps	2 pcs
L600	Red LED beacon with audible warning	1 pc
M Design		
M000	Paintwork of Suction Superstructure in MB9147 Artic White high gloss colour	Included
N Equipment for loosening the ground		
N800	Additional Hand Tools: 2m Spade for cleaning container 2 Scrapers Pinch Bar Grease Gun Rubber Hammer Oil Discharge Hose	1 pc
O Handing over / Instruction		
O010	Documentation and operator's manual to be supplied in digital format	Included
Q Chassis Options		
Q100	Installation of the side under-run guards	1 pc
Q400	Installation of mudguards	1 pc
SON Special Requests		
SON1	I-Box (connection point only)	1 pc
SON2	Side door in container made of steel for the removal of material	1 pc

PRICING SUMMARY	
1 x Pre-Owned ESE3 RS1100 City Sucker RSP Suction Excavator Mounted on a Mercedes-Benz Atego 1324 4x2 Euro 6 Chassis Cab	£57,500.00 + VAT
